

QUOTATION E LASER X4 DISTO

DESIGN FEATURES

DIGITALLY ASSISTED LEVELLING

MANUAL FINE POSITIONING OF LASER POINT

RECHARGEABLE AA BATTERIES (INCLUDED WITH CHARGER)

BLUETOOTH CONNECTIVITY

4 X ZOOMS LENS (GREAT FOR DISTANCE MEASURING)

ACCURACY 1-2MM FOR RECOMMENDED APPLICATIONS

ELaser is the most accurate easy-to-use laser digital templating system. It is the industry standard for as-built measuring.

The ELaser X4 DISTO is the perfect system for residential countertop templating and 3D room measuring for cabinet layout. Once again, ETemplate and Leica, the world leader in laser technology, have combined expertise to deliver an unbeatable solution at great value!

The ELaser X4 DISTO provides the ultimate in 2D measuring accuracy and control. This version of ELaser X4 DISTO collects 3D data and automatically projects it onto the desired 2D plane making it ideal for virtually all 2D design needs. The user can define any plane in space as the XY plane (horizontal/vertical/other) for 2D layout and design.

The automated countertop feature of the ETemplate Measure Manager™ software automatically draws a digital template as the space is being measured. The user predefines standard specifications such as overhang, corner radii, splashes, offsets and more that may be modified as needed based on customer /builder specifications.

Measure Manager 3D Software:

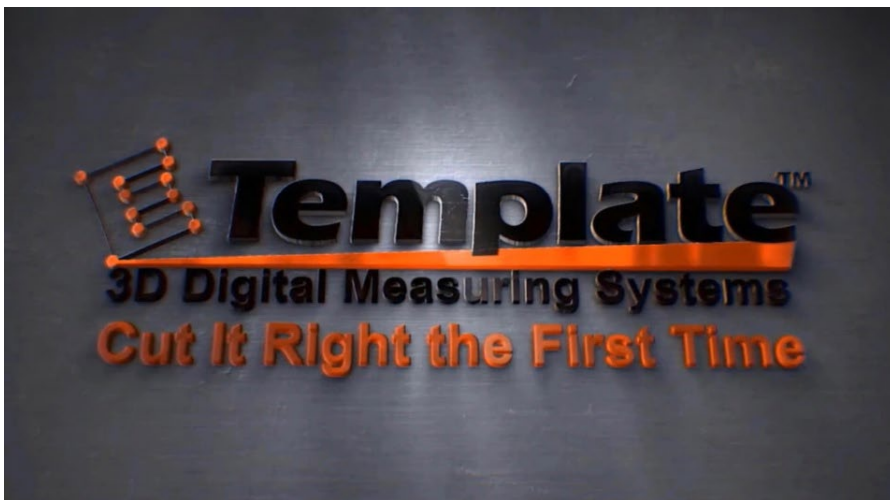

- Measures points, lines, arcs, circles, rectangles, splines, polylines, planes, and distances
- Fully integrated 3D and 2D capability
- Measure and model any complex 3D freeform space
- Import 2D or 3D DXF models of design for verification in the shop or field
- Establish and collect data for infinite number of 2D planes.
- Allows 3D data to be snapped to 2D planes for better CAD manipulation
- Collect any number of points desired to create 'best fit' geometry for improved fit and installation
- Creates complete 3D CAD/BIM models of any space for design, fabrication and installation requirements
- Exports DXF/DWG/IGS to any CAD
- Extensive CAD functionality (drawing/editing/detailing)
- Defines XYZ coordinate system to datum line for any other desired location
- Automatically converts splines into lines and arcs for CNC use
- Measures in Imperial or Metric
- Also includes all features of the ELaser Pro™ 2D version

Included in the price -

- Delivery
- Leica X4 DISTO in protective case
- Laptop
- Tripod
- Targets
- Measure Manager TM Software
- Full on site Training

We Know That Support Is Important To You

Buying a new machine is a big commitment for anyone, and continued support throughout the life of that machine is vital.

Being an Australian and New Zealand company, we carry a vast array of parts here in New Zealand to ensure that your machine always has the spares it needs. Enjoy peace of mind knowing that you'll be fully supported by Farnese and we'll always have you covered.

Farnese customers don't need to experience unnecessary machinery downtime waiting for remote assistance from other countries, as all the support and remote assistance is provided locally in New Zealand from our own qualified Technicians in New Zealand time.

Our mission here at Farnese is to give you the best support. As we grow, we continue to recruit more and more qualified technicians, to further strengthen our position in the industry.

68 Montgomery Crescent, PO Box 40-809, Upper Hutt, New Zealand
